

**Puget Sound TRT**  
**Seventeenth meeting—Tuesday-Wednesday, August 14-15, 2001**  
**Northwest Fisheries Science Center, Seattle, WA**  
**DRAFT Agenda**

Tuesday, August 14 (NWFSC Rm 438E)

- 9:00 am      Viability group (Sands et al.)**
1. PVA methods and results
  2. HPVA methods and results
  3. Putting together all approaches to get pop viability/recovery goals; what will/should viability/recovery goals look like? Adult and juvenile delisting criteria.
  4. Identify technical questions to discuss with the RSRP
  5. Discuss answers to Shared Strategy questions; schedule for reporting interim goals, remaining analyses for Shared Strategy; schedule for supporting technical document.
- 12:30      LUNCH**
- 1:00 pm      Viability group, cont'd**
- 4:30      ADJOURN**

Wednesday, August 15 (NWFSC Rm 370W)

- 9:00 am      ESU-wide recovery (all)**
1. approach the TRT will take, population characteristics we want to measure.
  2. diversity, spatial structure tasks (Currens)
  3. overview of using reserve design algorithms to create recovery scenarios
  4. Discuss answer to Shared Strategy questions—what to present
- 12:00      LUNCH**
- 12:30      Habitat group (Fuerstenberg et al.)**
1. questions the watershed/population case studies should address
  2. SHaRP document, habitat group work plan refinements
  3. Discuss answers to Shared Strategy questions
  4. TRT approach to threats analyses
- 2:30      Population identification (all)**
1. Identify technical questions to discuss with RSRP
  2. Approach to addressing comments, co-manager meetings, finalizing document
- 3:30      TRT business (all)**
- upcoming dates: RSRP meeting 8/28; summer chum field trip 9/25; Shared Strategy retreat 9/27
